10. Data Abstraction

p.292
o data abstraction/data encapsulation
        : class(Simula), cluster(CLU), form(ALPHARD),
          module(Euclid), package(Ada), structure

        data      data              operation
        information hiding

        - - > modifiability, reusability, security

p.297.    10.2
p.298

eg) C++   p304      10.6

        constructor (new)
        destructor (delete)
        member function
